Eric, I hope you are well and managing during the difficult situation we find ourselves in during mass telework, shelter in place Orders and COVID-19 response. I did want to check in, however, regarding the management of the City of Flint Drinking Water Plant and Distribution System during this Pandemic Response. Have you had a check in with the City and are there any concerns that we should discuss?

I also wanted to draw your attention to a COVID – 19 guidance document and clarification of enforcement discretion that was provided by OECA yesterday. The press release and link to the guidance document can be found here:

Thanks,
 Beth
